**Re: Proposed Title V Permit Renewal and Modification**  
Application ID 8-9908-00162/00043  
High Acres Landfill & Recycling Center  
Town of Perinton, Monroe County

Dear Mr. Riva:

A Proposed Title V Permit for the above referenced facility is available for review and comment for the required 45 day EPA review period.

Since EPA has electronic access to the Department's AFS computer system, a paper copy of the Proposed Permit is not enclosed with this letter. Presently, we intend to issue the Proposed Permit as a Final Permit after the 45 day period has ended, if EPA has not raised any objection. However, if your review is completed sooner and there are no comments, please notify me in order that the permit can be issued sooner.

Our office received no comments during the public comment period, so there is no responsiveness summary to address comments enclosed, and the Proposed Permit has no changes from the Draft Permit based on comments received.

Please address any formal comments from EPA to my attention at this office. If you have any questions regarding the Proposed Permit, please contact either me at 585-226-5402 or Michele Kharroubi of our Division of Air Resources at 585-226-5312.

Sincerely,

Lisa M. Porter  
Environmental Analyst  
Division of Environmental Permits
